Employee Trust Funds Board Announces 2013 WRS Contribution Rates

At its September 20, 2012 meeting, the Employee Trust Funds Board (Board) approved Wisconsin Retirement System (WRS) contribution rates for 2013, including rates for Wis. Stat. § 40.65 protective occupation duty-disability and the State Accumulated Sick Leave Conversion Credit Program. These rates are based on current benefit levels and recommendations from the Board's independent consulting actuary.

Your specific contribution rates effective for salaries and wages paid beginning January 1, 2013 are available on ETF's Internet site at:

<http://etfonline.wi.gov/ETFCalculatorWeb/etf/internet/employer/ETFemployerrates.jsp>

WRS Employment Category:

General, Teachers and Educational Support Personnel
Executive, Elected and Judges
Protective with Social Security
Protective without Social Security

Contribution Rate Change:

Increase 1.5%
Decrease 0.1%
Increase 1.5%
Increase 1.8%

Employers who have either elected to increase prior service coverage or pay off their unfunded liability balances may also experience a change in their prior service rates.

Why Are Rates Increasing for Most Categories?

There are many complex factors that affect WRS contribution rates, such as investment performance, legislative adjustments to benefit levels, demographics, etc. It is important to remember, WRS assets are smoothed over a course of five years to prevent large swings in WRS contribution rates. As a result, the unprecedented investment declines from the 2008 global economic crisis will affect rates through 2014 (2010 was the first year the rates felt the negative effects of 2008). The rate increases are necessary to maintain a sound funding status and to be able to pay the benefits that have been promised to your employees.

For more information about the reasons for the 2013 rate increase, the actuary's full presentation is available on ETF's website at:

<http://etf.wi.gov/boards/agenda-items-2012/etf09202012/joint/item-3b.pdf>

2011 Wisconsin Acts 10 and 32 in most cases prohibited WRS employers from paying the employee-required portion of the WRS contribution. The 2013 rate increase will be split equally between the employee and employer for general employees, executives, elected officials and judges. Act 10 requires that the employee-required contribution for protective occupation employees be equal to the employee-required contribution for general employees. In addition, Act 10 reduced future benefit levels for the executive, elected official, judge category, which put downward pressure on the 2013 rate for that category.

The annual actuarial valuation incorporates current economic and demographic data into the existing financial condition of the WRS in order to set new contribution rates for the system. It is normal for contribution rates to fluctuate somewhat from year to year, based on investment earnings, wage inflation and demographic trends. In addition, the change in contribution rates may vary between employment categories, depending on varying demographic trends within those groups. Benefits being paid to current annuitants are not affected by these rate changes.
