ADDITIONAL INFORMATION

Referral Requirements	A written referral is required for services performed by a provider who is not the Primary Care Provider (PCP) or is not located at the primary clinic. Referrals are not required for providers at Dean Medical Center sites and those clinics in association with the Dean Medical Center. Referrals to non-Plan Providers must be prior authorized by the health plan before services are received. Dean Health Plan will reply to your referral in writing. Services that do not require a referral if seen by a Plan Provider include but are not limited to: chiropractic care, routine vision care, and OB/GYN services when obtained from an OB/GYN specialist.
Prior Authorization Requirements	Prior authorization is required for those services that are indicated in the "Benefits and Services" section of the <i>It's Your Choice</i> booklet. If you are not sure if a service or procedure requires prior authorization, you may call Dean Health Plan Customer Service Department to determine if prior authorization is necessary.
Medicare Claims Procedure	Most Plan Providers accept Medicare assignment, in which case the process is fully automated. If Medicare is the primary carrier, claims must be submitted to Medicare first. After Medicare processes the claim, your provider will then submit the itemized bill and the Explanation of Medicare Benefits to us for processing as the secondary carrier.

From www.deancare.com you can also select Provider Directory to locate participating doctors, hospitals and urgent care centers by city.
Outpatient Mental Health Network/Policy	A referral is required for outpatient mental health care if services are performed by a provider who is not located at your primary clinic. You should contact your PCP to initiate a referral. For treatment of alcohol and other drug abuse, you may obtain treatment at a Plan Provider without a referral.
